

# JUDICIAL WAIVER IN 5 STEPS

BECAUSE PARENTAL CONSENT IS NOT ALWAYS AN OPTION.

Judicial waivers allow people under the age of 18 to get an abortion in North Carolina without parental involvement. It's free, confidential, and Text Abby is here to help through the whole process.

## Text Abby at 844-997-2229

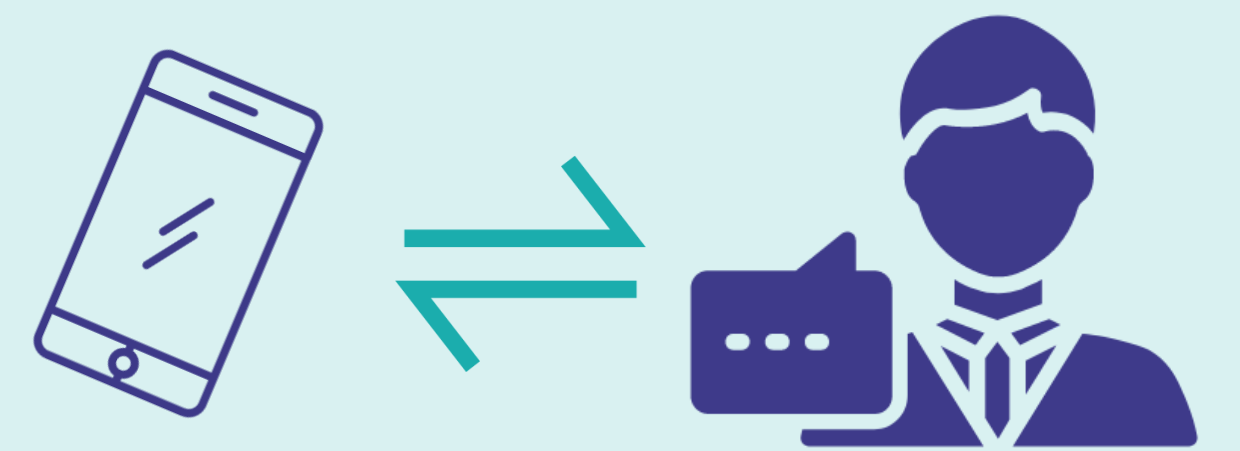

This is the time to ask questions about the process and decide if you want to proceed.

If so, we'll schedule a time for you to speak with an advocate.

## Answer some basic questions.

We will use the information you provide in this phone call to connect you with an attorney. The attorney will represent you at no cost.

## Talk to your attorney.

They will file the petition on your behalf and schedule the court hearing.

## When you schedule your abortion, you will get two appointments.

The first is an appointment for informed consent, and the second is for the abortion procedure. The informed consent can happen before or after the hearing as long as it is 72 hours before the abortion. The abortion appointment should be scheduled for after the hearing. Don't get deterred by costs you are told by the clinic. Reach back out to us, and Text Abby will help with funding.

Watch out for fake clinics! Find a real abortion clinic near you at [ineedana.com](https://www.ineedana.com).

## The Hearing.

Your attorney will advocate for you and ask you some questions to demonstrate that you are mature and well-informed. The judge may ask you some follow-up questions. The hearing will be held privately and everything you say will be confidential.

If your waiver is granted, you will be given a Certificate which you will need to take with you to the clinic.
